

# Monitoring the Regional Implementation Strategy

[www.MonitoringRIS.org](http://www.MonitoringRIS.org)

The **Monitoring RIS web page** ([www.MonitoringRIS.org](http://www.MonitoringRIS.org)) supports the follow-up process to the Regional Implementation Strategy (RIS) for the **Madrid International Plan of Action on Ageing 2002 (MIPAA)** in the UNECE region.

It is an instrument set up by the **European Centre for Social Welfare Policy and Research** and its **MA:IMI project** ([www.euro.centre.org/maimi](http://www.euro.centre.org/maimi)), in collaboration with the United Nations Economic Commission for Europe and the associated Task Force and sponsored by the Austrian Ministry of Social Affairs and Consumer Protection.

## Aims:

- to deliver knowledge and information about the follow-up to the RIS
- to promote the exchange of experience in the field of ageing-related policies
- to provide an overview of instruments, activities and resources, such as country facts and figures

**Structure.** The web page provides access to normative frameworks, tools, facts & figures, policies & strategies, implementation activities, networks and NGOs, at four different levels: global, regional, national and local.

**Accuracy / Cooperation.** The web page is updated every other month according to new findings and suggestions. All interested actors are invited to have a look at the current pages as an example of what can be provided for each region or country, and to submit to the Editorial Committee any information they regard as relevant and which could help to enhance the web page's accuracy. For that purpose, please use the online form or, alternatively, send us your suggestions to: [risweb@euro.centre.org](mailto:risweb@euro.centre.org)

**MA:IMI**

The European Centre is a UN-affiliated intergovernmental organization concerned with all aspects of social welfare policy and research.
