

The international network "AgeNet International - Central Asia without borders" consists of 44 gerontological organizations from eight countries: Kyrgyzstan, Kazakhstan, Tajikistan, Georgia, Armenia, Russia, Azerbaijan and Turkmenistan.

The Mission of the "AgeNet International" is to promote the increasing responsibility of the government and the civil society for the improvement of the older generation's status.

The Network is performing the following activities:

- Monitoring of the older generation status;
- Network members' capacity building;
- Development of the strategy for the improvement of the older generation status in intersectoral partnership;
- Development and implementation of mechanisms of the provision of equal access to the social services;
- Development of the principles of the Madrid Plan in the countries;
- Open and use of capacity of older people for realization of goals of the Network;

Annually the "AgeNet International" conducts a number of activities for the support of elderly people:

- the yearly action "From Heart to Heart", various charity auctions, trade fairs, concerts and other actions to raise funds to support elderly people;
- draw special attention to the development of culture of philanthropy in the society: November 2009 1st International conference in the Kyrgyz Republic "Prerequisites of origination and development of culture of philanthropy in the Kyrgyz Republic".
